PROFESSIONAL SUMMARY

Bachelor of Information Technology (BSIT) student and freelance web developer with 2+ years of hands-on experience building responsive websites, modern interfaces, dashboards, landing pages, and business-focused digital experiences. Strong foundation in HTML5, CSS3, JavaScript, responsive design, UI/UX principles, GitHub, and modern web development workflows, with practical exposure to Next.js, React, Node.js, PHP, Laravel, APIs, and database-driven applications. Experienced in translating requirements into usable interfaces, debugging implementation issues, reviewing technical outputs, and delivering client-oriented solutions.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, Responsive Web Design, React, Next.js, UI component development
Backend	Node.js, PHP, Laravel, REST APIs, server-side application concepts
Database	MySQL, PostgreSQL, Supabase, database fundamentals, CRUD/data-driven applications
Development	Git/GitHub, VS Code, debugging, code review, problem solving, logical reasoning, deployment workflows
Design	UI/UX principles, dashboard design, landing pages, Canva, CapCut, social media and visual content
AI/Technical	Technical content evaluation, code reasoning, comparing implementation approaches, identifying bugs and improving AI-generated outputs

PROFESSIONAL EXPERIENCE

Freelancer — Web Development & Creative Digital Services | 2+ Years

- Built and maintained responsive websites, landing pages, portfolio sites, business interfaces, and dashboard UI concepts.
- Worked with HTML, CSS, JavaScript and modern web-development workflows to turn requirements and designs into functional interfaces.
- Handled client communication, revisions, troubleshooting, delivery, and project deadlines professionally.
- Created digital creatives including banners, thumbnails, social media designs, and promotional visual content.
- Applied structured problem-solving to UI issues, responsive behavior, code quality, and real-world website requirements.

SELECTED PROJECTS

SpotFree — Car Wash & Cleaning Services Platform

Real-world service platform covering customer booking, responsive website experiences, admin/CRM workflows, service selection, add-ons, invoices, notifications, and database-backed functionality. Worked with modern web technologies including Next.js, Tailwind CSS, APIs, and Supabase/PostgreSQL workflows.

Al Rehaab Services — CRM / Service Management

Business-focused web and CRM dashboard project involving bookings, customers, services, administrative workflows, data management, and responsive dashboard interfaces.

Stratos Agency — Marketing & Digital Services Website

Professional agency website and digital presence project focused on modern responsive UI, service presentation, SEO-oriented structure, and business conversion experience.

Al-Annabi Tourism — Qatar Tourism Website

Tourism website project featuring service-focused pages and experiences for tours, airport transfers, desert safari, city tours, camel rides, dune bashing, and other Qatar tourism services.

Portfolio & Client Web Projects
Designed and developed personal/client portfolio websites, interactive landing pages, responsive business websites, and dashboard UI concepts, including portfolio work and the Saad Ahborads project requested for this CV.

EDUCATION

Bachelor of Information Technology (BSIT) — Present | The Islamia University of Bahawalpur

Focus Areas: Web Development, Programming, Database, UI/UX

Intermediate | Punjab Group of Colleges, Muzaffargarh

Matriculation (Science) | Amin Scientific School

MINDRIFT / AI CONTRIBUTOR PROFILE

Well suited for technical AI-training work involving web development, code evaluation, technical reasoning, bug identification, response comparison, prompt-based tasks, and quality review of developer-oriented AI outputs. Combines practical project experience with a strong academic foundation in programming, databases, web development, and UI/UX.

CORE STRENGTHS

- Strong attention to detail and logical problem solving
- Ability to understand technical requirements and evaluate implementation quality
- Practical experience with real-world websites and dashboard workflows
- Comfortable learning new tools, frameworks, and project-specific guidelines
- Clear communication and professional client collaboration
